HANDICAPPING (see below). New players can use their PPD from last year (there is a list on the website “FALL 2017 PPD LIST”). If the player is *not* listed they use 25.00 PPD.

- All players that have shot 3 weeks or more must pay a once-a-year \$11 Sanction fee. This fee includes both the WAMO and NDA required sanctioning. There is a Sanction Card (Roster) form available on the website under “Team folder. What team folder?” Please fill out your teammate’s information and return it to our office with the fees included as soon as possible.
- **The sanction deadline is December 1st.**
- If you have paid this fee in another league (Reds, Sam’s, Jukebox Larry’s, etc.) please inform our office as to which league, night and team as soon as possible.
- If these fees are not paid by the end of the season they will be taken out of your prize checks.
- The column next to your name on the standings will show Y = Yes (if paid) / N = No (if not paid).

SPOT POINTS HANDICAPPING

Spot Points is a percentage based handicap method using a player’s Points per Dart (PPD). In each match players are compared to the highest PPD in the game to determine their starting score. **Note: The Arachnid League System calculates these values automatically (see below).** The best player will always start at the highest X01 score. The rest of the players could have anywhere from the minimum starting score to equal with the highest player. “301” Minimum starting score is 301 and Maximum starting score is 331. “501” Minimum starting score is 501 and Maximum starting score is 551.

In addition to this, all players with a PPD of 22.00 or higher will MASTER OUT (Double, Triple or Bulls eye on winning dart). THIS IS NOT PROGRAMMED INTO THE DART BOARDS.

New player PPD: A list of players’ PPD from the previous year is provided on the website. Please refer to this list when bringing in ANY player that has not shot for this particular team and season. **New players added will use their previous season’s PPD.** If this new player is not on this list, he/she will use a 25.00 PPD. When entering the new player’s name in match set-up, you will have to enter the correct PPD manually (Hit the UP arrow on the dartboard,

and then enter the PPD rounding it to the nearest tenth (ex. 23.27 would be entered as 23.30)). You can also contact the league office *at least 24 hours* in advance of the match to have your subs name and PPD entered.
